

DOCK DOOR PROTECTOR

Are fork lifts damaging the loading dock doors? Our dock door protectors safeguard both the door panels when in the down position as well as the door tracks in the up position.

- Overhead door protection when gate is down and door track protection when the gate is up.
- Yellow powder coated finish.
- Secures with concrete bolts.
- Fits between overhead doors that are close in proximity to each other.
- ½ inch thick plate and schedule 40 steel construction.
- Saves on costly repairs.
- 36 inch by 4 inch square.
